

# REPORT

**DATE:** March 6, 2008

**TO:** Administration Committee and Regional Council

**FROM:** Wayne Moore, Chief Financial Officer, [moore@scag.ca.gov](mailto:moore@scag.ca.gov), (213) 236-1804

**SUBJECT:** Approval of the Fiscal Year (FY) 2008-2009 Comprehensive Budget

**EXECUTIVE DIRECTOR'S APPROVAL:** 

---

## RECOMMENDED ACTIONS:

1. Approve the FY 2008-2009 Comprehensive Budget and Resolution 08-495-1(attached) authorizing this action and submittal for approval. The budget contains the following components: the Draft Overall Work Plan, the General Fund Budget, the Indirect Cost Budget and the Fringe Benefits Budget; and
2. Authorize the release of the Draft Overall Work Program (OWP) and the Indirect Cost Allocation Plan (ICAP) to Caltrans and other funding agencies as necessary for approval, initiate a 30-day public comment period and transmit the General Fund Budget to the General Assembly.

## SUMMARY:

SCAG is required by federal and state law to develop the OWP and the Indirect Cost Budget. These budgets must be submitted to Caltrans for review and approval before any dollars can be expended by SCAG. In order to assemble all of the budget components into one document and satisfy the requirements of Caltrans and SCAG's bylaws regarding adoption of an annual budget, SCAG staff has developed a comprehensive budget document for the FY 2008-2009 that contains the following components: the General Fund Budget, the Draft OWP, the Indirect Cost Budget, and the Fringe Benefits Budget. Approval of this comprehensive budget and transmittal of required sections to Caltrans and the General Assembly will allow SCAG to be able to start projects and spend funds effective July 1, 2008. If the comprehensive budget is not approved, SCAG's projects and programs will stop effective June 30, 2008.

In recent years, SCAG has increased staffing and project commitments to one of the highest levels in its history. In terms of staffing, SCAG's staff level three years ago was 25% lower than it is today. In short, the organization has seen a dramatic increase in both SCAG staffing and financial commitments since the completion of the 2004 RTP. As part of our on going efforts to improve upon our delivery of services, we are making a concerted effort to concentrate our resources upon our legally mandated transportation planning activities and other activities such as Compass Blueprint and the Regional Comprehensive Plans. You will note that our proposed budget emphasizes these core activities and functions.

In addition to our focused efforts, this budget also recognizes the current economic downturn confronting all levels of government, whether local, state or federal. As a result of this downturn, it is anticipated that public monies that were available in years past, such as grants from the State Compass Blueprint Program, will be significantly reduced or otherwise unavailable to SCAG in the future. It is our intent to present a fundamentally sound, realistic budget that considers this reality.

# REPORT

In light of this, and in preparation for the 2008/2009 fiscal year budget, SCAG's management has determined that it is necessary to scale back staffing and project commitments that are not mandated, and to focus our priorities on our core mission.

There are four specific factors that have contributed to an approximately five million dollar reduction in the FY 08-09 budget compared to FY 07-08:

- As mentioned above, SCAG's commitments over the past few years have resulted in a significant increase in staffing levels and consultant work.
- SCAG's non-federal grant funding has been reduced by \$3 million.
- SCAG's commitment to pre-fund its retiree health care benefit over five years increased agency costs by \$1.67 million.
- SCAG's federal grant funds availability has decreased by \$1 million.

These factors became evident during the development of the FY 08-09 budget and have presented difficult challenges for SCAG in maintaining the same level of commitment in the FY 08-09 for staffing and consultant levels. These factors require that in the coming year SCAG focus on core mandated activities and undertake significant reductions in consultant budgets for both SCAG and the Subregions. Additionally, there will be overall staffing reductions in the coming year. We will attempt to manage the reductions through attrition however other actions may be necessary.

We believe that such emphasis on core priorities and the recognition of the current economic circumstances compels SCAG to take these prudent actions. We strongly believe that these actions will place SCAG on sound financial ground and will insure that SCAG remains the nation's preeminent MPO and COG.

## FISCAL IMPACT:

Approval of this document impacts all funding, projects and programs for FY 2008-2009.
